## ILLUMINATION SECTOR

OFFICIAL PRODUCT CATALOGUE

Nuestra planta de producción dispone además de una variedad de acabados disponibles para cumplir cualquier requisito del cliente. Desde acabados transparentes, hasta la última innovación *Black & White*.

Our production lines have a variety of appearances available in order to satisfy all the customer's requirements. From the clear ones to our last new one: *Black & White*.

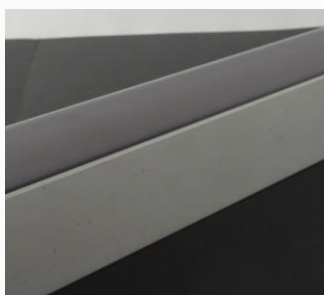

### Black & White

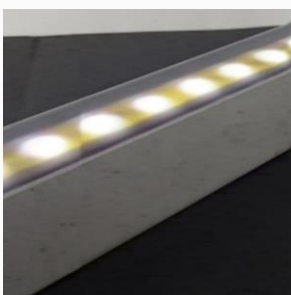

#### PRINCIPAL CARACTERÍSTICA DE Black & White

##### Black & White MAIN CHARACTERISTIC

SIN LUZ WITHOUT LIGHT

CON LUZ WITH LIGHT

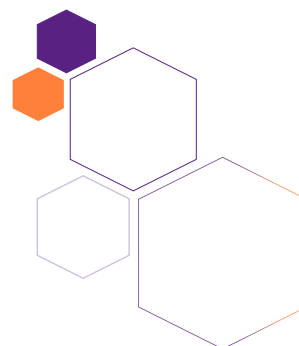

- El acabado Black & White nos puede ofrecer la posibilidad de ocultar la tira led sin llegar a ser opaco.
- The Black & White appearance can bring us the possibility to hide the led strip without being opaque.

## ILLUMINATION SECTOR

OFFICIAL PRODUCT CATALOGUE

Dentro de los diferentes aspectos, encontramos el acabado transparente, cuya opacidad es tan reducida que se puede apreciar el contenido que esté cubriendo este perfil. Le sigue el mismo en mate, el cual tiene una superficie rugosa que le hace gozar de un tono menos brillante. Finalmente, encontramos el acabado LED y OPAL. Ambos, más opacos que los anteriormente mencionados.

We have the transparent aspect which is the less opaque, so it can show its content. Next, we have the clear one in the matte version. Finally, the LED one and the OPAL, which are the opaquest among all the aspects.

# WHY PERVASA

Perfiles del Vallés lleva desde sus inicios aplicando un método de producción propia el cual agiliza todo el proceso de planteamiento, diseño, producción y envío de un perfil poniéndoselo fácil a sus clientes.

Since its beginnings, Perfiles del Vallés is still applying an own manufacturing method which make the process for their customers the easiest, thanks to an own planning, designing, manufacturing and delivery.
